

BLACKCLOAK

## INVEST YOUR ULTRA-WEALTHY CLIENTS' & FAMILIES' DIGITAL LIVES IN BLACKCLOAK

The news is filled with stories of data breaches, ransomware, and identity theft. Each day there are stories of personal information, pictures and private details being stolen, and the pace continues to accelerate. In fact, cybercrime is expected to cost \$6 trillion by 2021.

Your clients trust you to install a top-of-the-line solution for Smart Home Automation, Networking, Physical Security, and Remote Monitoring. Partner with BlackCloak to give your customers the layer of protection they need in their connected homes.

You've delighted them with an installation that exceeded their expectations, and BlackCloak will ensure that your Savant, Crestron, Control4 or fully custom solution is protected.

### WHAT DOES BLACKCLOAK DO?

Our dedicated team of cybersecurity professionals provide a bespoke concierge package to our customers that utilizes enterprise-grade cybersecurity software and tools (not available to the average consumer) that are commensurate with your client's household digital risk profile. And we do so in a way that is unobtrusive to their privacy. BlackCloak ensures your clients are educated on, informed of and protected against the ever-evolving cyber threat landscape.

### ENLIST BLACKCLOAK SERVICES TO PROTECT YOUR CLIENT FROM A BREACH

Persons who are protected by BlackCloak are less likely to be the point of compromise from phishing emails and other malicious cyber-attacks. BlackCloak hardens your client's security and privacy on the front end and continuously monitors for suspicious behavior on their home network, personal devices and IoT devices. We also keep you abreast of the latest scams and attacks, so you can be armed with that knowledge and not be caught off guard.

### ENLIST BLACKCLOAK SERVICES TO REMEDIATE AND PROTECT YOUR CLIENT AFTER A BREACH

Do you know if your clients have been breached? Do you know what to do if you find that they have been breached? BlackCloak can tell you if your clients have been breached and persons impacted by a breach can be rest assured that BlackCloak will remove all

threats that resulted in the breach in the first place. Furthermore, BlackCloak will implement controls on home networks and personal devices to prevent future breaches and ensure their privacy and data are never hacked again.

With BlackCloak, you can rest assured that your client's household digital footprint will be monitored and protected from cybercriminals at all times. Contact BlackCloak today to see how we can protect your clients and what coverage options are available.
